Reflection; using evidence in practice and academic work.

Learning Outcomes

Outcome Number	Description
01	Demonstrate skills in monitoring care, interpreting and responding to findings, reporting changes and escalating concerns effectively.
02	Describe the alternative communication skills that may be required to provide information to individuals, families and carers.
03	Demonstrate responsibility in safe medicines optimisation.
04	Apply knowledge of commonly encountered conditions and demonstrate skills in a range of nursing procedures and management of devices to meet patients' needs.
05	Demonstrate skills in reflection, using supporting evidence and accurate data management for safe care delivery and portfolio development.

Learning, Teaching and Assessment Strategy

Students will develop understanding and application of their knowledge through the use of lectures and seminars which will be evidence based and research informed. Some of these sessions may be delivered synchronously and asynchronously to enable students to access at their convenience. These will facilitate the achievement of LO 1,2, 3, 5. Practical sessions will facilitate application of knowledge and skills development LO 2 and 4.

Learning will be supervised in Hub and Spoke practice placements. Supervised learning in practice will also facilitate application of theory to practice and reflection on practise. Web-based resources, including the VLE will support achievement in all learning outcomes and application to practice.

The apprentice must meet all the required standards when measured against each individual learning outcome for the module (as mapped below):

Nursing Associate* Standard: K4, K19, K20, K23, K24, K27, K28, K29, S2, S3, S4, S5, S7, S24, S25, S27, S28, S30, B1, B2, B3

Formative feedback will be available through tutorials. The reflective coursework will assess LO 1,2,3,5. The Practice attainment document (PAD) will assess LO 4 and 5.

Mode of Assessment

Type	Method	Description	Weighting
Summative	Coursework - Written	Reflection on the Nursing Associate role in providing person centred care.	100%
Summative	Coursework - Portfolio/e-portfolio	Practice attainment document (PAD) [pass/fail]	0%

Please note:

This module descriptor has been published in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publication, but minor changes may occur given the interval between publishing and commencement of teaching. Upon commencement of the module, students will receive a handbook with further detail about the module and any changes will be discussed and/or communicated at this point.
